

Hot Blooded Mammals

Lyrics and music: Matt Levin, bridge: Burchie Green,

I got hair, here and there, I've got a spinal column and I breathe air,

I'm a hot-blooded mammal, a hot-blooded mammal—
If you whistle or bark, me-ow or moo, you might be a mammal, too.

Cats on the land, whales in the sea, bats in the air, they're all a lot like me, cause I'm a hot blooded mammal. A hot-blooded mammal.

If you whistle or bark, me-ow or moo, you might be a mammal, too.

(Bridge)

Zebras, monkeys dolphins whales, all are mammals that's no tale

You and I are mammals too. We do the things that mammals do.

— Dogs nurse their babies, llamas do too. That's the kinda thing that only mammals can do and I'm a hot-blooded mammal, a hot-blooded mammal. If you whistle or bark, meow or moo, you might be a mammal too.
