

Another Seed Song

Lyrics and music by Burchie Green,

1.) Seeds with wings they fly in the wind
Seeds with spikes they stick to your skin
Seeds with neither wings nor spikes they don't fly or take a
hike

They just fall... to the ground
Like the acorns..plunk plunk
Like the butternuts plunk plunk
Like the chestnuts plunk plunk...
Like the walnuts plunk plunk

2.) But seeds that like to fly in the wind
Travel far from where they begin
Never know where they will go
Flying high and flying low
Till they gently fall .. to the ground
Like the maple seeds.fly fly.
Like the milkweeds.. fly fly
Like the cattails.. fly fly
Like dandelion seeds... fly fly

3.) Seeds with spikes that stick like a burr
Travel on an animals fur
Cats and dogs and deer and mice
Spread the seeds it works so nice
Eventually they fall to the ground
