

## *Ever Thankful*

Lyrics and music: Burchie Green

It's cold outside but in my heart I feel warm and really thankful

For my friends so sweet and all I eat may I be ever thankful.  
For the world I'm in may I begin to spread joy and love and kindness.

For my friends so sweet and all I eat  
May I be ever thankful

Chorus:

Ever thankful for all the good things that I see  
Ever thankful for you... and me. Ever thankful for peace and harmony and all good things this life can bring.
