

# One Pink Tower

words & music Burchie and Matt

We are building one pink tower, we are building one pink tower  
We are building one pink tower. And this is how we start...  
We put the biggest at the bottom...and get the next biggest cube,  
and the next biggest cube, and the next biggest cube, and the  
next biggest cube.

We get the next biggest cube, and the next biggest cube  
and the next biggest cube , and the next biggest cube ,  
till the smallest at the top. And there are ten pink cubes.  
And each one is smaller as the tower taller grows.

Unless you build it side ways, for as anybody knows.  
You can build it like a train, you can build it so it leans.  
You can build it on its tiny cube- although you know what that  
means -it's gonna fall It's gonna fall. It's gonna fall.

And then... we are building a new pink tower .We are  
building a new pink tower. We are building a new pink tower...  
till ,we put it away.
